

# TCS WARRIOR

## Superior Performance Unbeatable Value

The WARRIOR is one of the most popular and affordable models in the TCS line of truckmounts. It is not a typical "entry level" system. The 19 horsepower EFI Kohler engine provides plenty of fuel-efficient muscle. Also, because of our unique console design, the 3L DSL blower outperforms other blowers in its class without the need for grease fittings. Just like every truckmount we build, the heating system delivers consistent temperatures that exceed the highest industry standards even during hard surface cleaning. In other words, the TCS WARRIOR is all you need to get spectacular results on any residential or light commercial job. With a General pump and clutch as standard features, the WARRIOR is an excellent choice for cleaners and restorers who are ready to upgrade from portable extractors. To top it all off, the WARRIOR comes complete with wand, hoses, reels and a space-saving freshwater tank. When you drive away with your new WARRIOR truckmount system from TCS, it is 100% ready to work so you can be too.

### Specifications & Accessories

- 19 HP KOHLER Command PRO E.F.I. Engine\*\*
- Sutorbilt™ 3L DSL vac blower @ 288 CFM

# Warrior Truckmount Options & Upgrades

## Installation Options

The TCS WARRIOR is designed to be in at least a standard length 3/4 ton cargo van. If you don't already have a vehicle we can help you find the best prices on new & used vans as well as excellent financing options for the entire package.

Installation available for Chevrolet, Nissan, Ford & Dodge vans as well as box trucks and trailers. DOT approved tanks, auxiliary fuel tanks, and fuel tap kits are installed at TCS in Atlanta (additional distributors and vendors throughout the United States).

TCS can include a custom trailer with your truckmount purchase. Tandem axles, a flat front, and extra height make a TCS trailer an excellent choice for cleaners who already have a pickup truck or just want to save money on their first complete truckmount system.

Box Trucks are great options for companies that need to keep all their tools close at hand. If your box doesn't have a side door, the entire TCS WARRIOR system can fit along the side walls. Or TCS can have a side door professionally installed for you which will allow for more floor space.

## Package Upgrades

### Fresh Water Tank

TCS truckmounts come equipped with 55 gal fresh water tanks. Step up to a Hydro-well and increase your fresh water capacity to 115 gal.

### Auto Pump Out Kit

The best APO in the industry. Strong enough to keep up during routine cleaning or intense water extraction. Includes additional ports and plumbing.

### Electric Hose Reel

Save space, save time, and lower technician fatigue with an electric vacuum hose reel. Maximum capacity 300 feet.

## Rotovac Accessories

360i

Powerwand

360 XL

**ROTOVAC**

From the original makers of the RX-20, the Rotovac line of light-weight rotary extraction wands offers the most features for residential and commercial cleaning, at the lowest price.

## Tile Accessories

Hydroforce  
Gekko

Mytee  
Spinner

EDIC  
Revolution

Hydroforce  
SX Series

Upgrade your TCS truckmount system to 2000 PSI for hard surface cleaning. Package upgrade includes XP Little Giant heater and Emperor 1813 pump to maintain high heat and maximum pressure.
